

The Rover domestic mower range is purpose designed for Australian conditions to cut through the toughest conditions year after year. The entire range of Rovers is BUILT TO OUTLAST the competition and engineered to give you a great start and a great finish every time. What else would you expect from a company proud to display its Quality Endorsed Company ISO 9001 status, the internationally recognised quality benchmark.

So when you put your new Rover to work you know it's backed by the very best in design, development, production and service.

Rover 460

- Lightweight mower, ideal for small to medium size blocks
- High lift blade for superior cutting and catching performance
- Cuts to the edge on both sides so twisting and turning are kept to a minimum
- Rear fitting catcher, easy to attach and detach heavy duty steel frame for enhanced durability
- Classic 37 Briggs & Stratton engine for easy starting, reliability and long life

GREAT START - GREAT FINISH

EasyStart/PowerMaster

- Lightweight mower, ideal for small to medium size blocks
- Rover durable 460mm (18") high arch base for superior cutting and catching performance
- Cuts to the edge on both sides so twisting and turning are kept to a minimum
- Rear fitting catcher, easy to attach and detach
- Briggs & Stratton Sprint 37 engine for easy starting, reliability and long life

EasyStart

EasyStart Xtra

EasyStart Xtra

- Rover durable 460mm (18") high arch base for an improved cut and catch – long lasting base with excellent grass throwing characteristics
- Ideal for medium size blocks
- Ball bearing wheels for easy manoeuvrability and pushing
- Large capacity catcher is easy to attach and detach
- Optional deflector chute for when catcher not required
- Briggs & Stratton Plus 40 engine – smart looks and smart start
- Heavy duty air filter and high level oil filler for ease of maintenance

Challenger

- Rover durable 460mm (18") high arch base for long life and excellent grass catching
- Full width cut minimises mowing time
- Comfort grip adjustable handlebars – makes turning and pushing easier
- Easy to operate controls
- Ball bearing wheels for easy manoeuvrability and pushing
- Dual handle catcher makes attaching and emptying easier
- Catcher fitted with steel mesh insert panel for longer catcher life
- Briggs & Stratton Quantum XM 50 engine – power, reliability & easy starting
- Ideal for small to average size blocks

Regal

- Rover 460mm (18") high arch alloy base – long life and great catching
- Cuts to the edge on both sides to reduce twisting and turning
- Ideal for average to large size blocks
- Cam-Action handle lock for easy handling and quick secure folding
- Dual handle catcher makes attaching and emptying easier
- Catcher fitted with steel mesh insert panel for longer life
- Briggs & Stratton Quantum XTS 50 engine – power, reliability & easy starting
- High level air intake system for minimum filter maintenance

Powerful Briggs & Stratton Quantum XTS 50 engine

High arch alloy base improves air flow, resulting in a brilliant cutting and catching performance.

XDS46 Self Propelled

- **Self propelled** for easy going mowing on flat or undulating ground
- To operate simply start, engage the clutch and go
- Rover durable 460mm (18") high arch base with special catcher pick-up area
- Convenient handlebar controls
- Ball bearing wheels for easy manoeuvrability
- Briggs & Stratton XM 50 engine with easy start technology
- High level oil filler makes maintenance easy

Powerstart

- **Rover Key start** for an effortless start, every time
- Fully sealed maintenance free battery housed in protective box to ensure minimum maintenance
- Ignition key conveniently positioned on handlebars
- Lightweight Rover 460mm (18") high arch alloy base for excellent cutting and catching
- 12 position cutting height adjustment
- Ball bearing wheels for easy manoeuvrability and pushing
- Briggs & Stratton Quantum XTS 50 engine with dual recoil and battery/key start
- Heavy duty air filter and high level oil filler for ease of maintenance

Mulch 'n Catch

This is a lawn mower and a mulching mower in one! With this smart water saving feature from Rover **Vari-tilt**. You decide when - and where - you want to catch or mulch. When the lawn needs a boost simply remove the catcher and fit the mulching plug into the mower discharge chute. When mowing extra long, heavy, or grass with thatch build-up, just put the catcher back on.

As well as making the lawn grow better than ever, mulching saves money on fertiliser, water and trips to the tip.

- Converts between a catching mower and a mulching mower
- Rover 460mm (18") high arch alloy base – long life and great catching
- Cuts to the edge on both sides to reduce twisting and turning
- Ideal for average to large size blocks
- Cam-Action handle lock for easy handling and quick secure folding
- Briggs & Stratton Quantum XTS 50 engine – power, reliability & easy starting

Vari-tilt conbar

Mulching plug fits into discharge chute

Self Propelled Mulch 'n Catch

Recess pocket & Directional vane

The mulching plug incorporates a recess pocket and directional vane to ensure aerodynamic conditions, allowing clippings to be cut finely and distributed evenly back to the lawn.

- Self propelling for easy going mowing on flat or undulating ground
- Cuts to the edge on both sides to reduce twisting and turning
- Ideal for average to large size blocks
- Cam-Action handle lock for easy handling and quick secure folding
- Briggs & Stratton Quantum XTS 50 engine – power, reliability and easy starting

Recess pocket

Model 45 Reel Mow

- Perfectly manicured, striped lawn finish
- Top of the range self propelled with variable mower speed
- 435mm (17") cylinder cutting width
- 6 blade reinforced cutter (also available for 10 blade cutter for that extra fine finish)
- Front roller knob control for precise height adjustment
- Grooved rear rollers for better traction
- Grass deflector for even grass distribution
- Briggs & Stratton 3.5hp easy start engine

EasyGo Mulch 'n Catch

- **Self propelling** for easy going mowing across flat or undulating ground
- Converts between a catching mower and a **Mulching mower**
- **Key Start** for an effortless start, every time
- Fully sealed maintenance free battery housed in protective box to ensure minimum maintenance
- Ignition key conveniently located on handle bars
- Lightweight Rover 460mm (18") high arch base for excellent cutting and catching
- 12 position cutting height adjustment
- Ball bearing wheels to make pushing easy
- Briggs & Stratton Quantum XTS50 engine – power, reliability & easy starting
- Heavy Duty air filter and high level oil filler make maintenance easy

GREAT START - GREAT FINISH
